

# LeaseAccelerator Single Sign-On

Make leasing access easy

**LeaseAccelerator Single Sign-On (SSO) allows you to manage access to Lease Lifecycle Automation with your existing access control strategy and policies.**

Security compliance is always a concern for companies with a complex IT infrastructure. Multiple authentication processes used across various systems and applications can cause potential security vulnerabilities and lead to data breaches. By adding LeaseAccelerator Single Sign-On, you can be sure that your users meet your security compliance requirements, making life easier for your IT teams.

With LeaseAccelerator Single Sign-On, users can use the same login for LeaseAccelerator as they do for the rest of their mission-critical applications. LeaseAccelerator Single Sign-On integrates with your existing SSO solution, connecting access control and uniting all the company applications into one productive environment with a single point of access.

**Centrally**  
managed user  
access

**Enhanced**  
system security and  
policy compliance

**United**  
business and technical  
environments
