

LeaseAccelerator Lifecycle Edition™

Drive digital transformation with lease lifecycle automation

LeaseAccelerator is the only enterprise lease lifecycle automation solution that provides centralized, asset-level data to multiple stakeholders, including CFOs, VPs of Real Estate, Treasurers, and Procurement Officers. With LeaseAccelerator's suite of products, you can optimize the entire global leasing process - from equipment sourcing and real estate lease administration to asset-level accounting for long-term compliance with ASC 842 and IFRS 16.

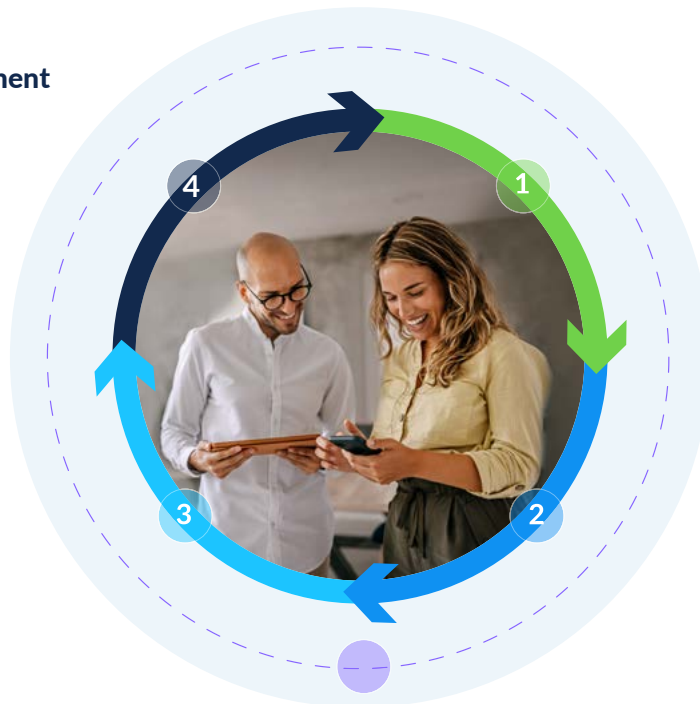

Complete lease lifecycle management

End-of-term management

Stay ahead of asset returns and end-of-term events to keep costs down.

Accounting & reporting

Account for leases with a true monthly close and audit-ready automation and controls.

Sourcing

Make better Lease vs. Buy decisions. Save on lease-line RFPs using a competitive marketplace.

Administration

Administer real estate and equipment leases at the asset level with workflows and analytics.

Emissions tracking and reduction

Use asset-level data to manage metrics and support decarbonization.

LeaseAccelerator Lifecycle Edition

LeaseAccelerator offers a suite of applications that manages assets from signature to sunset for key stakeholders in the office of the CFO.

Lease vs. Buy Analytics	PureLease Marketplace	Asset Lifecycle Manager	Lease Accounting Manager	Real Estate Manager
Treasurer, Controller	CPO, Treasurer, Controller	Controller, Treasurer, VP ESG	Controller	VP Real Estate
Centralized, consistent economic decision-making	Competitive equipment lease sourcing	End-to-end control of real estate and equipment	Automated record-to-report (R2R) process	Real estate procure-to-pay (P2P) strategy and administration

Key features

Competitive marketplace for equipment leases

Get standardized, competitive bids with PureLease Marketplace's 500+ lessors, and reduce lease financing costs.

Asset-level accounting

Manage leased assets individually or at the contract level in their own subledger for easy change management. Use asset-level data for new use cases, such as emissions reporting.

Audit-ready reporting

Generate automated disclosure reports for faster close, such as:

- Roll forward report for audit transparency
- Deal analysis report to document complex transactions
- Custom reports

Error-correction workflow

Monitor and roll back changes if needed with role-based access control (RBAC) to ensure all data is accurate for audit reporting.

End-of-term optimization

Get insights into leases that are about to end to avoid lease overpayment or evergreen status.

Lease administration and compliance

Manage owned and leased real estate properties to lower real estate costs, optimize real estate lease administration, and ensure real estate accounting compliance.

Chosen by Big Four accounting firms

LeaseAccelerator Lifecycle Edition is trusted by a network of experts, including top accounting firms, as their platform of choice for clients. Our alliances help manage lease lifecycle projects to meet your goals - from technical accounting and data collection to implementation and managed services.

Schedule a demo today

LeaseAccelerator provides a global Lease Lifecycle Automation platform that improves free cash flow and ensures long-term compliance across equipment and real estate assets.

Thousands of users rely on our Software-as-a-Service (SaaS) platform to manage and automate 900,000 leases valued at \$250 billion across 2 million assets in 142 countries that generated 8 billion journal entries.
