Please join us on Thursday, January 24th for a session with your peers to discuss the new Lease Accounting Standard (ASC 842) / IFRS 16.

Learn how to navigate potential implementation issues and best practices. Walk away with an understanding of the key success factors needed to implement the new standard, including how the implementation will impact your existing policies, procedures, systems, and disclosures related to leases.

Get answers to the following questions:

- How does the status of my leasing project compare to other companies in the marketplace?
- What transition issues and key challenges are companies facing?
- How do I embed the new standard in ongoing processes sustainably?
- Which technical accounting topics are posing the greatest interpretation issues?
- How should we be identifying and managing our lease portfolio? (policies/processes/controls)
- Do I need a lease accounting system and which one is best for my company?

Presenter Information:

Dennis Carey, CFA

Solutions Consultant, LeaseAccelerator

In this role, Dennis helps companies navigate the challenges associated with the upcoming changes in lease accounting standards, delivering effective solutions to these varied organizations. Dennis brings a great deal of experience in treasury, finance, and accounting from his previous position as VP & Assistant Treasurer at Hasbro and from managing Lease Accounting for Shaw's Supermarkets. Dennis holds a BS in Accounting from the University of Southern Maine and has earned the Chartered Financial Analyst (CFA) designation.

Felipe Torres, VP Mexico

As Vice President, Felipe is responsible for the overall strategy, market growth, and business and client development across all lines of professional services for RGP's Mexico Operations. Felipe has 24 years of professional experience, including leadership roles in business development, advisory & consulting, and in the financial services industry where he has become a practice leader in the field of enterprise wide risk management and regulatory compliance. Felipe has worked for multinational companies, solution selling and advisory firms, as well as for Banks and Financial Groups. He also has entrepreneurial experience as an independent consultant leading a team of professionals providing services to insurance companies, pension funds, investments firms, and SMB's. Felipe has a BS in Accounting and Finance from Universidad Iberoamericana and an MBA from Tecnologico de Monterrey, both schools located in Mexico City.

After, you are invited for cocktails and a meet and greet with a LeaseAccelerator expert who will answer any questions.
