

# Health Check Assessment

Release the full potential of LeaseAccelerator

**The LeaseAccelerator Health Check Assessment gives you a complete overview of your organization's LeaseAccelerator implementation. It provides you with actionable improvements to streamline your lease management and accounting processes to increase efficiency.**

When you set up your new Lease Lifecycle Automation platform for the first time, you made process and configuration decisions that might not be optimized for your current environment. Your business may have shifted, requiring you to take another look at your policies and processes so you can get the most out of your leasing program.

LeaseAccelerator Health Check Assessment delivers a detailed analysis of your current LeaseAccelerator use and a detailed plan for improvement and optimization of our system within your organization, tailored for your unique needs.

The Health Check gets down to the core of your application and reviews every area and use case, determining potential improvement areas, such as inefficiencies of the current environment configuration and potential functionality improvements within the LeaseAccelerator platform.

The Health Check service is based on best practices and a comprehensive knowledgebase accumulated throughout decades of experience working with hundreds of enterprise clients.

## Optimize

the system and tailor it for your accounting needs

## Improve

lease accounting efficiency
