

# Lease Abstraction Services

Abstract the most accurate and complete data about every lease

## Get the most out of our Lease Lifecycle Automation platform by ensuring your leases are loaded right the first time.

Whether you have just a few simple leases or thousands of multi-language contracts, you know that it can be difficult and time-consuming to dig through the lease agreements to get a clear view of the terms before you can add them to a database. Plus, doing this abstraction manually can introduce errors that affect your audits and compliance status.

Look to one of our recommended partners to help you tackle this critical step in your lease automation process.

### Lease types supported

- Real Estate
- Equipment
- Any material or asset lease
  
- English
- Dozens of other languages

---

- Simple
- Complex

## Choose from our partners with confidence

---

Our partners handle tens of thousands of leases like yours every year.

---

They scan, validate and review each lease with more than 99% accuracy.

---

---

Their expert teams understand the key components of leases, even complex ones.

---

Lease terms are translated from nearly every language so you can have a consistent view of your overall leasing program.

---

---

Your resources can focus on the business insights gained from lease lifecycle automation and other higher value projects.

---

LeaseAccelerator provides a global Lease Lifecycle Automation platform that improves free cash flow and ensures long-term compliance across equipment and real estate assets. Thousands of users rely on our Software as a Service (SaaS) platform to manage and automate 700,000 leases valued at \$200 billion across 5 million assets in 172 countries that generated 8 billion journal entries.
